TIMBERLAKE COUNCIL MEETING October 21, 2014

STREETS AND SEWERS

The mayor introduced Pete Formica from CT Consultants to give an update on the road project and storm sewer project. Mr. Formica reported that the video tapes of the storm sewers have been reviewed and in the southeast quadrant there are three areas where there is one piped that is so clogged with roots the camera could not go through and two pipes that are completely crushed. These pipes will have to be dug up and replaced. The village will receive quotes for the repairs. The village should have some numbers for these repairs by next week so repairs can be done before the end of the year. The remainder of the village will be televised so that over the winter the tapes can be reviewed for any additional trouble spots. Sanitary sewers are working final and the annual cleaning has been completed.

The road project is on course. The grant that the mayor and Mr. Formica put together was approved by the Ohio Public Works Commission. The village has received a grant for \$243,000.00. The village will receive this money next July. This money is about 31% of the cost to repave the entire village. The estimated cost for repaving is \$786,000.00. The village has also received an interest free loan for \$150,000.00 as part of this application. Fifty percent of the money is coming from the state.

Jim Gasier presented Resolution 2014-34, a resolution authorizing and directing the mayor of the Village of Timberlake to prepare and submit an application to participate in the Ohio Public Works Commission State Capital Improvement Program; to execute contracts as required; and declaring an emergency.

Motion to approve: Gasier

Dr. Sharma reported that rentals are slowing down. Upkeep and maintenance will be done at this time.

TREES AND PARKS

Mary Trepal reported that the tree commission has staked out 4 areas where new trees will be planted. Mary will be meeting with the arborist to decide what type of trees should be planted. If our service department plants the trees it will save us approximately \$125.00 per tree. Now is the best time to plant trees because they are dormant this time of year.

Stumps will be ground from the trees that were removed. The grindings will be put back in the service garage area where they will sit over the winter and be used next year for mulching in the village.

Mary is going to see if there is any grant money from Lake County for older residents who cannot afford to take down trees on their property.

SERVICE

Mike Stanton reported that the service department is busy removing leaves off the streets and public areas. The service truck has a broken U-joint and it will be repaired. The snowplow has been taken to Myers dealer for inspection. The seconded snowplow needs some welding for use as a back up plow.

Morton salt quoted us a price of \$131.75 per ton with a guarantee of only 20 tons. Last year we paid \$41.00 a ton. ODOT has committed salt to us this year for \$79.00 per ton with ODOT to deliver. The service department is going to make an effort to conserve on salt with salting the intersections and street entrances to see how this works. If this does not work we will spread the salt out further. The streets will be maintained with snow removal and salting as needed. We will only be charged for the salt that has been used. We will not be locked into a specific tonnage amount as we have no storage facilities to stock pile large quantities of salt. The City of Eastlake plows Lake Shore Blvd.

Twenty bags of cold patch will be put down on Waban to fill the large holes so that damage will not be done to the plow this year. We are going to keep an inventory in the service garage to keep up on the holes through plowing season.

Mike Stanton presented Resolution 2014-38, a resolution authorizing the mayor to enter into contract with ODOT for road salt.

Ken Zalar has stepped from council effective September 30, 2014. Council appreciates all the work Mr. Zalar has done for the village. Mr. Zalar stepped down for personal reasons. Three candidates have applied for council seat. Interviews will be held October 28th at 7:00 PM

SAFETY

Chief Esser gave his monthly report which will be posted in the village newsletter.

Phone scams have been on the increase. Please be aware that the IRS does not call people on the phone. They notify by mail only. Never give out personal information over the phone. If you get one of these calls hang up immediately.

Vehicle grants have opened up again and Officer Thompson is writing grants for another police vehicle and equipment for the vehicle.

Written warnings have been issued for commercial vehicles and recreational vehicles that are parked on residential properties. The department will continue following up on this matter.

Chief Esser introduced a new special Officer Joseph Stocky who was hired in June. Officer Stocky is in currently in training.

Additional candidates are being interviewed for positions on the police department. Out of 14 candidates there are five who will be asked back for additional interviews.

Garbage and Recycling Can Reminder

We still have many residents that are just leaving their cans in front of the house all week. Please be considerate of your neighbors and observant of the law regarding outdoor storage of your cans. Keep them in the garage, store them in the side or back yard, or consider ways to screen the containers from view from the street. Your cooperation is appreciated,
Mayor Cattani

Just a courtesy note to remember that the mayor, the council members, and the clerk treasurer all have families living here. Please consider this when putting up signs and sending out letters. Set a good example for the children.

Thank you,
Julie Cattani

Christmas Eve Luminary Display Approaching

by Mayor Dave Cattani

Please remember to start saving milk jugs and buy some votive candles so you can participate in the long-running Christmas Eve Luminary Display. If you get your sand from the beach, it's always better to do that BEFORE the beach freezes. Newer residents are encouraged to ask your neighbors what the Mayor is talking about if this reminder is confusing to you. If you want to help fill, distribute or light the hundreds of luminaries on the islands and triangles, call Ron Mona at 942-2887.

TREE COMMISSION NOTICE:

The Tree Commission has noticed when surveying the village that there are private properties with dead trees. In order to not endanger our streets or our neighbors, everyone should care for their trees. If you have any questions about your trees you can call anyone on the Commission.
