Councilperson Wanted

With the recent resignation of Mr. Santangelo on February 17, 2015, we have a vacancy on Village Council. I'd like to thank Sam for his work during his time in office, as well as for the help he has provided, and will continue to provide, the village in Service Department related issues.

Council meets at 7:30PM on the third Tuesday of the month. In addition to the monthly meeting, each councilperson chairs one of the following committees: Finance, Storm Sewers, Service, Village Hall, Parks / Recreation / Trees, and Safety. Committee meetings are typically only scheduled as needed. The monthly time commitment varies according to committee assignments and seasonality. This is a great way to help the Village, meet people, and learn how local governments operate. We have a strong council, which brings its diverse professional experience together to help Timberlake meet the needs of the residents. The incumbents are more than willing to help the appointee get up to speed, so don't worry about a lack of elected experience.

To learn more about the position, call Mayor Dave Cattani (440-269-0705), Council President Mike Stanton (440-942-6660), or any other council person.

VILLAGE CLUB NEWS

Our social calendar of the Village Club is in jeopardy. The financial support of the last two years of the Family Day Picnic was below the cost of the event and our finances are depleting rapidly. This is the only fund raiser we hold to support the children's Halloween Party, the Easter Egg Hunt, and Santa visits. Appeals for volunteers go unanswered.

Please keep in mind with no financial support, no volunteer help, and no external assistance, there will be no social events.

Please contact Ron Mona at 440-942-2887 if you'd like to offer your assistance in any manner.

“Clean-up After Your Pets”

For most dog-owners, taking a walk is part of your daily routine. But did you know that leaving pet waste on the ground could harm water quality? Pet wastes contain bacteria like E. coli and cryptosporidium, which can make humans sick. When pet waste is left on the tree lawn, stormwater washes it into storm drains and directly into our lakes and rivers. This means the bacteria will flow directly to Lake Erie, our drinking water source. Not only does pet waste contain bacteria, it also contains nutrients. These nutrients also wash into rivers and lakes with stormwater, where it can be harmful to plants and animals living there. An excess of nutrients leads to increased algal growth, including algae in a Harmful Algal Bloom (HAB). This type of algal bloom can produce toxins which close beaches and makes water undrinkable. Follow these steps to help keep bacteria and nutrients out of stormwater:

- Pick up after your pets! Flush the waste down the toilet or throw it in the trash.
- Never throw waste down the storm drain.
- Because pet waste contains bacteria, it cannot be composted.
- Do not dump pet waste anywhere but in the trash!

Stormwater pollution can be found in everyone's backyard. Do your part to keep Lake County's waterways clean. For more information, contact the Lake County Stormwater Management Department at www.lakecountyohio.gov/smd or 350-5900

PARKS AND TREES

Mrs. Trepal reported that they had an information tree commission survey. The arborist showed many different ways of doing a tree survey regarding diseased trees, trees removed, replanting, etc. Mary has four books from the tree commission that she will share with the residents. Contact her for this information. There will be a tree pruning demonstration on March 14th for the public. Bring your gloves and pruners and he will show people how to properly prune. On March 6th there will be Urban Forestry conference that several people from Timberlake's tree commission will be attending.

Lisa Stefaniak reported on the public requests that are currently in Timberlake. Lisa is assisting Maureen Munera, who has been hired part-time to help Lisa, in responding to the public requests. Lisa reported that in 2013 there were a total of 116 public record requests. In 2014 there were 60. This year, 2015 to date, there have been 30. There is one request in which a resident requests all emails that contain her name in every email be sent to her. All council people needed to be contacted, current and past, in her time frame request, which is a total of 10 people. Lisa, herself, has a total of 1,782 emails to print out, because it has to be kept on file. The mayor has submitted over 600, Mr. Stanton has submitted almost 700, with still more to be submitted.

The March meeting will be March 17th, St. Patrick's Day.

STORM SEWERS

Mr. Gasier reported that the mains by Waban all seem to be flowing. The sanitariums were not flushed out last year. Ciro Sewer said that they would honor the same price that was passed last year to do the sanitary lines this spring. As soon as the ground thaws the

repairs that were done will be cleaned up and landscaped. Mr. Formica said that when the weather breaks continued repairs will be made.

SERVICE

Mr. Santangelo reported that we received another shipment of salt the end of January. We should be set for the rest of the winter. Scott has tried to be very conservative with the salt spreading and plowing more often as needed. The billing for the salt is still being figured out as the state has not done this sort of billing before. Lisa has the pink slips from the salt deliveries.

Mr. Santangelo said that he will be resigning from council for personal reasons. He will still be available to help out when needed with the roads and equipment.

The mayor has asked again that residents please keep their garbage and recycle containers out of view from the front of the homes.

The solicitor explained that the minutes taken at the council meetings or not word for word. The minutes are a summary of the meeting. There will never be an exact word for word. The minutes are corrected/approved at each council meeting. Again they are only a summary of the meeting.
